The NEC IT5200 – Speed, Power and Productivity

The NEC IT5200 is a powerful, high volume multifunctional system with the flexibility to meet and exceed the needs of any business. High yield consumables and extensive finishing options make the IT5200 a building block for enterprises and large work group businesses. It produces high quality black and white prints at 52 prints per minute and has a monthly duty cycle of 200,000 impressions that ensures any work environment can meet critical demands.

The NEC IT5200 provides standard copying, printing and scanning features. Standard paper sources include two 500-sheet drawers plus a 200 sheet multi-purpose bypass tray that can support various media types up to ledger size and 110 lb index for special jobs. Optional paper sources provide an impressive maximum paper supply of 4,200 sheets.

At less than one second per page, the available 100 sheet dual scan document feeder greatly improves productivity and scans in both black and white and full color. Another productivity enhancing feature is the 100 sheet reversing document feeder with scan speeds up to 75 images per minute. Color scanning is available with resolutions of up to 600 x 600 and multiple file formats that include PDF, JPEG, TIFF, and XPS. Scanning applications include scan to Email, SMB, FTP, USB, WSD and Twain. Standard network printing provides low operational cost and allows for full networked management and finishing features.

The NEC IT5200 offers several finishing options:

- 3,000 sheet multi-position staple finisher, with optional 2/3 hole punch, 7 bin mail box and booklet folder.
- 1,000 sheet multi-position staple finisher
- 500 sheet single position internal finisher

Copy

The NEC IT5200 provides a fast 52-cpm black and white output and quick first-copy time that allows businesses to keep up with the pace of a demanding workplace. It also provides a full complement of finishing options for advanced finishing needs.

Print

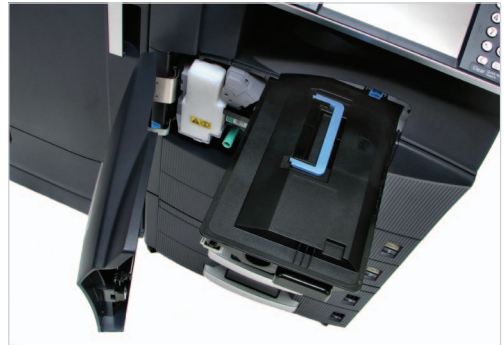

The NEC IT5200 comes complete with networked printing that enables printing in PCL6 and PostScript-3 emulation for PC and Mac operating systems. Now everyone can print high quality black and white documents. Extended features include finishing, booklet printing, stapling and more.

Scan

The NEC IT5200 comes with a wide range of scanning capabilities. It comes complete with standard network scanning in color and black and white, and works with a wide variety of file formats such as TIFF, PDF, JPEG and XPS. This allows businesses to share resources, import color documents, and convert paper-based files to electronic files, enabling them to be more productive and profitable. Scanning options include:

- **Scan-to-Email:** Send documents to anyone's email. The NEC IT5200 sends scanned documents as file attachments within an email.
- **Scan-to-FTP:** Scan documents to an FTP server for access by users to view and or retrieve the document, using proxy servers.
- **Scan-to-SMB:** This desktop scan, typically found in Windows® environments, offers the ability to scan directly to a host PC on the network to share files in a folder.
- **TWAIN Scanning:** TWAIN scanning application for your PC. Once loaded, use the NEC IT5200 as a scanner controlled from your desktop.
- **Scan-to-USB:** Scan directly to any USB drive.

Fax

A high speed fax option allows businesses to bring all of their document needs together in one central location, eliminating the need for a separate fax machine. Fax features include:

- Duplex TX
- Confidential RX
- Duplex RX
- F-Code
- Confidential TX
- Dual Fax

Security

Securing business data is a priority for many companies. The security features of the IT5200 allow for secure storing and accessing of documents as well as printing, copying and scanning using the 160GB hard drive.

Network Integration

The NEC IT5200 offers a complete suite of network and device management solutions to provide any business with the needed tools to manage output devices.
